Contract Engineer SOD SBU (HPCL) | Field Engineer | Phistream Consulting Private Limited

#### 01-Sep-2023 – Till Now

Contract Engineer SOD SBU (HPCL) | Field Engineer | Vishal Expert Services Private Limited

**Job Description Summary:** Operations & Warehouse Management and Logistics Professional.

**Company Experience:** Hindustan Petroleum Corporation Limited

As an experienced professional with 2.5 years of expertise, I have successfully managed various aspects of warehouse operations, logistics planning, and inventory control. Here are the key highlights of my responsibilities:

#### **Warehouse Management and Operations:**

Efficiently oversee warehouse operations, ensuring smooth processes from order receipt to product dispatch.

Implement best practices, adhering to standard operating procedures (SOPs) and statutory guidelines.

Maintain inventory accuracy and optimize storage space utilization.

#### **Logistics Planning and Supply Chain:**

Strategically plan logistics activities, including transportation, distribution, and order fulfillment.

Collaborate with cross-functional teams to streamline supply chain processes.

Monitor delivery schedules and coordinate with carriers for timely shipments.

#### **Procurement and Purchase Order Management:**

Initiate purchase orders, considering inventory levels and demand forecasts.

Facilitate seamless order-to-cash cycles, ensuring timely payment release.

Maintain strong vendor relationships and negotiate favorable terms.

#### **Quality Assurance and Compliance:**

Ensure compliance with weight and measurement department standards.

Perform tank truck and gantry calibration according to factory-approved layout specifications.

Adhere to safety protocols and statutory guidelines.
